If there is the slightest question as to the seriousness & criminal nature of the complaints filed with the Commission in Judicial Circuit, the documentary evidence submitted to the Commission should be ~~re~~ requisitioned.

Alternatively, we will <sup>avail</sup> make to you expeditiously <sup>such</sup> documentary proof establishing either "probable cause" to believe that the misconduct complained of had occurred ~~or~~ or the "prima facie" evidence.

Additionally, we will produce for you scores of complaints whose complaints ~~were~~ of serious misconduct were summarily dismissed by the Commission - without any finding by ~~it~~ that the complaints so-dismissed were facially "without merit".

Thank you
