STECHER, J.:

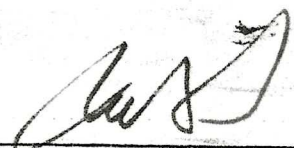

The application for order to show cause is denied.  
There is no basis here for a motion of this kind.  
If the moving papers fail, as the plaintiff contends  
to comply with the prior orders of Judges who have passed upon  
phases of this case, the judge to whom the defendant's motion  
will be submitted is competent to make that decision. To the  
extent that the motion involves disclosure, a Referee has been  
appointed, the Honorable Donald Diamond, to supervise all aspects  
of disclosure in this case. Whether or not the motion which is  
yet to be heard meets the criteria which the plaintiff's attorney  
thinks have been established cannot be ascertained without reading  
those motion papers. The person best equipped to do that is the  
judge to whom the motion is to be submitted.

This application is in all respects denied.
