Honorable Jacob Mishler

Att: Fred Perkins, Esq.

Re: Sassower v. Signorelli et el.
84 Civ. 2989 [JM]

Honorable Sir:

1. This is to confirm an extension of time for submission of my papers to October 5, 1984, to be received by Your Honor by October 8, 1984.

2. Subsequent to my conversation, I was informed that the transcript should be ready on October 1, 1984, although because of the holidays next week, no promises could be made.

3. My present intentions, subject to Your Honor's desires, is to immediately mail Your Honor copies of the appropriate portions of Mr. Larsen's testimony relating to "off the record" discussions with Your Honor, to Your Honor and opposing counsel.

4. Again, so that my intentions not be misconstrued, the purpose is only for His Honor to determine whether under the circumstances he should "sit and determine". I have not made, and am not making, even by indirection, any recusal motion or request.

5. If my adversaries believe there is any better or preferable procedure for the above, I invite their suggestions.

Honorable Jacob Mishler

6. This letter also confirms the fact that, although the Assistant Attorney General had in hand my letter of the 19th inst., he objected to any additional time in order to obtain the transcript and respond. This was also conveyed to Your Honor's secretary.

Most respectfully,

GEORGE SASSOWER
