The rules proposed herein I believe conflicts or may have conflict as it relates to abiding to the full letter of the constitution and the fundamental rights of the people for the cause that;

1)If the people have a right to services by right and liberties then no ideal of anyone should deprive the rights of the people with whom the members & lawmakers here are counted in that very same number

2)no aw of the constitution can be breached or remade for in doing so would be an act of treason, misprision of treason, Collusion and among other things.

Resolution

Hereafter, forevermore and indefinitely create laws or "Policies" written under penalty of perjury ensuring that all the members and lawmakers created proposals will Preserve the People's rights otherwise any current or future proposal is and are moot, and null in void even on its' face. So create positive law proposals preserving the rights and interest of the People.

respectfully Submitted,
