Subject: Sassower records request

Ms. Sassower,

This correspondence is in response to your request for information about lawsuits that have been filed against the Commission.

The Commission is not subject to the Freedom of Information Law (FOIL). It has promulgated records access regulations which include what information is considered publicly-available. In accordance with Executive Law §94(19) and the Commission's regulations for accessing publicly-available records, there are no responsive records conforming to your request. Therefore, your request is denied. This decision may be appealed pursuant to the Commission's records access regulations as referenced above.
